

Breast Cancer Awareness Month

National Breast Cancer Awareness Month was created as a collaborative effort to raise awareness and gain funding for research to find a cure.

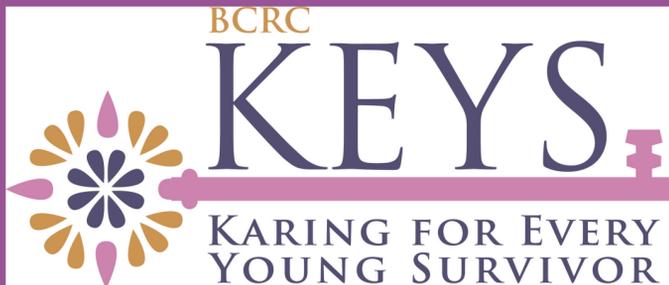

BCRC was founded in 1995 to provide guidance and support to Central Texans affected by breast cancer. Today, our certified Patient Navigators empower those touched by breast cancer to become active and knowledgeable participants in their healthcare.

MISSION

To empower those affected by breast cancer with personalized support and compassion.

VISION

A future where no one faces breast cancer alone.

In partnership with the Centers for Disease Control & Prevention (CDC), BCRC established the KEYS program to support young breast cancer survivors and metastatic clients.

As of 2021, breast cancer is the most common cancer globally, accounting for 12% of all new annual cancer cases worldwide.

World Health Organization (WHO)

BCRC has 13 Support Groups specifically focused on the unique needs of our diverse client population.

13

BCRC's patient navigation program provides individualized care from point of diagnosis, through treatment and into survivorship.

Support BCRC!

Host your own Independent Fundraiser benefiting the Breast Cancer Resource Center this October! To learn more, visit [here](#) or contact Celina Maggi at CMaggi@bcrc.org or call 512-962-2402.
