

The Breast Cancer Resource Center (BCRC) is a community- based non-profit serving Central Texans impacted by breast cancer since 1995. Strengthened by our mission - 'to empower those affected by breast cancer with personalized support and compassion' – and in collaboration with our community partners, BCRC envisions *a future where no one faces breast cancer alone*. BCRC offers individualized, patient-centered care from diagnosis, through treatment, and into survivorship. Through its two pillars of support - guidance and education, BCRC's certified patient navigators – whom are all breast cancer survivors themselves – empower those touched by breast cancer to become active and knowledgeable participants in their healthcare journey. All programs and services are offered free of charge to clients, regardless of their ethnicity, sex, age, or income. For more information about the Breast Cancer Resource Center, visit www.bcrc.org.
